**Food of the Rainforest**

- How does food grow in a rainforest?
- Animals and their teeth (compare with human teeth and their functions) – do animals have different teeth? What are the purposes of the teeth?
- Nutrition – what can you find to eat in a rainforest? What does food look like when passing through the digestive system? Prepare to get messy!

**Animals of the Rainforest**

- What animals do you find in a rainforest?
- Grouping animals – recognise that living things can be grouped in a variety of ways
- Fact files/ non-chronological reports – choose your own animal
- Identify producers, predators and prey. Working scientifically, what would happen if there were less animals?

**Earth's Rainforests**

- Identify where you would find Rainforests
- The different layers of Rainforests
- Do all Rainforests have the same climate?
- What is deforestation and what is the impact of this?
